RAFAEL EL SHAFIE

Software Engineering | Generative AI | Backend

EDUCATION

JAN 2025 - DEC 2028 | UNIVERSIDADE ESTÁCIO DE SÁ
Bachelor's in Software Engineering

EXPERIENCE

JUN 2026 - OCT 2026 | BTG PACTUAL

Software Engineering Intern (Short Job) | IT Onboarding & AI

- Developed an AI assistant from scratch in four months to help banking onboarding operators find business rules and information. The application went live and the team began using it.
- Organized hundreds of business-rule and process documents; implemented RAG and natural-language queries to PostgreSQL and MySQL, with source references and read-only access.
- Developed a Python/FastAPI backend and React/TypeScript frontend with history, feedback and administration; implemented conversational context and knowledge review.
- Implemented authentication, access controls and data protection, alongside automated tests and AI response evaluations.
- Prepared delivery with Docker, Kubernetes and Azure DevOps, with Datadog observability and AI usage and cost monitoring.

JAN 2026 - FEB 2026 | BTG PACTUAL

Software Engineering Intern (Summer Job) | IT Asset Management & Funds

- Worked with another intern using Scrum on a Manhattan real estate analytics solution to support investment decisions.
- Reworked data processing and built analytical tables in Databricks using Python, SQL, Spark and Pandas.
- Integrated two sources, resolved inconsistencies and matched properties using addresses and listing characteristics.
- Developed scoring and price/listing monitoring rules with the team, with Teams notifications via RabbitMQ and EKS.
- Built the Databricks dashboard from an existing version, with filters, maps and price-per-square-foot comparisons. Presented the project in English; the solution later went into production.

JAN-AUG 2024 | FLUXO CONSULTORIA - UFRJ JUNIOR ENTERPRISE

Project Consultant

- During initial training, helped develop a management backend with Node.js, TypeScript, NestJS and PostgreSQL, including authentication, permissions and API documentation.
- Visited a food manufacturer and interviewed staff to map processes and requirements; contributed documentation and conceptual and logical data models.
- Contributed to technology team improvements and its reorganization toward full-stack development; participated in trainee selection and mentoring.
- Supported accounts payable, reimbursements and bank reconciliation in the Administration and Finance department.

SKILLS

Languages & backend: Python · SQL · TypeScript/JavaScript · FastAPI · Node.js · NestJS · REST APIs · React
Data: PostgreSQL · MySQL · Data modeling · Pandas · NumPy · Spark · Databricks · Power BI · Excel
Applied AI: LLMs · RAG · Text-to-SQL · scikit-learn · Amazon SageMaker · Amazon Bedrock
Cloud & delivery: AWS (S3, EC2, RDS, IAM) · Docker · Kubernetes · Azure DevOps · Git/GitHub · RabbitMQ · Datadog
Engineering & quality: Requirements · Process mapping · Automated testing · pytest · Playwright
Currently learning: Java · Spring Boot · Spring Data · Spring Security

ADDITIONAL EDUCATION

PUC-Rio | Apr 2026 - Sep 2026
Artificial Intelligence and Data Science in the Cloud: AWS in Practice
Trained and deployed models in SageMaker;
analyzed data with Python, Pandas and NumPy using AWS services.

DIO · ITAÚ | Aug 2026 - present
Java, Spring Boot & AI Bootcamp

ALURA | in progress
AI Specialist career track

ALURA | in progress
Java Back-End Development career track

LANGUAGES

Portuguese: native · **English**: intermediate · **Spanish**: basic
